Bob et al

Here is the draft CDC toolkit on Legionella that we discussed with them today. They seemed to be open to receiving comments from EPA on the document. Cynthia Whitney would be the POC.

Hi Mark

Per the call earlier today, I'm sending the recent draft of the toolkit we are working on for Flint. The purpose is to help building owners and managers implement ASHRAE 188 as the standard for legionella prevention. Next week we will be revising it, so if you have any any suggestions please send them our way.
